

ISCSIC 2025

2025 9th International Symposium on Computer Science and Intelligent Control

Organized by:  浙江科技大学
ZHEJIANG UNIVERSITY OF SCIENCE & TECHNOLOGY

Hangzhou, China
September 26-28, 2025

Welcome

2025 9th International Symposium on Computer Science and Intelligent Control (ISCSIC 2025) will be held in Hangzhou, China during September 26-28, 2025. It is organized by Zhejiang University of Science and Technology.

ISCSIC focuses on theory and applications mainly covering the topics of unmanned systems, cyber-physical systems, computer vision, image and signal processing, pattern recognition, artificial intelligence, navigation and guidance, autonomous decision-making and control, Information security, intelligent systems, robotics, industrial process control, big data analytics, modeling and optimization. This conference aims to bring together researchers in the areas related to Computer Science and Intelligent Control in a single platform and present their stimulating research and knowledge transfer ideas in both Computer Science and Intelligent Control.

We warmly welcome all colleagues at home and abroad to participate in this conference.

Call for Papers

Click [here](#) for more information.

Topics of interest for submission include, but are not limited to:

Computer Science:

- Computer vision
- Big data analytics
- Pattern recognition
- Information system
- Computer security
- Computer network
- Computer simulation
- Artificial intelligence
- Multimedia applications
- Deep Learning
- Machine Learning

Intelligent Control Technology:

- Unmanned systems
- Cyber-physical systems
- Intelligent control
- Networked control
- Adaptive control
- Automatic control theory
- Predictive, robust control
- Process control and stability
- Control theory and application
- System modeling, analysis and synthesis
- Industrial process control
- Navigation and guidance
- Robotics and automation
